

To: Disability and Trust Beneficiary Provider Agencies

Hello and thank you in advance for your participation in the Help America Vote Act through our Alaska ***I Vote, I Count Campaign***. This Campaign is a result of a coalition of agencies working together to provide information for dissemination and voter activities. All of our activities must remain **completely nonpartisan** and focused on helping people access their right to vote. Please check our website at: www.ivoteicount.com

In an effort to save postage and to save you bulk, I've put all of the information about this Campaign in a PDF format as an attachment to this e-mail. Please give me a call with any questions or help you might need in promoting I Vote, I Count activities. I look forward to working with you and getting as many people as possible to the polls.

Three major component activities of the I Vote, I Count Campaign:

1. Voter Registration – getting people registered to vote
2. Voter Education- providing information on where to learn about issues
3. Voter Participation- helping people vote

You will find below a list of materials and the target audience for the information which has been attached to this e-mail:

This will enable us to determine how effective we were in registering people and how many of these individuals actually voted. Again, we welcome your input and are happy to support you in these civic involvement activities.**
